RE: #2006-00028

Dear Ms. O'Donnell:

I am writing this letter to reply to the recent proposal of the substantial sewer rate increase for Farmdale Subdivision. This is a substantial rate increase which will affect many residents of this subdivision. I believe this increase is too high and that, if in fact, an increase is required that the increase should not be that substantial. I also believe the amounts that are currently paid are sufficient.

Sincerely,

Rhonda Mattingly
